Location: _____

Governance (who owns and operates the museum currently):

Who you are and what is your relationship with the museum?

A little about the museum: How does it fit the criteria below?

Current situation: Is this a new project, in operation, what is its current annual budget, staffing?

What size is the building? The yard? (in square meters)

Why do you think it should be transformed? What is 'wrong' now? Why does it matter?

What you hope the impact of the transformed museum could be: Which audiences do you hope to engage? What could a 'new' museum do?

*Please also send some photos of the museum and its context along with this pdf to
